PROJECTS

Top Down Arcade Game
A member of a 3 person group creating a top down game. Utilizing a number of technologies such as PostgreSQL, Node.js, Bootstrap, Express.js, React.js, and Phaser.io game library
↻ github.com/rjsalamanca/brainz-2-the-horde

GoHybrid
Developed a system that uses a government car API in order to retrieve information about makes and models of vehicles and compares them to their hybrid counterparts. Created with PostgreSQL, Express.js, React.js, Node.js, and Bootstrap
↻ github.com/rjsalamanca/GoHybrid

SonoSong
A single page website that utilizes multiple API's in order to retrieve a playlist from a specific movie. This front-end application uses OMDB, YouTube, and the Wiki API's.
↻ bit.ly/2ZtxGZs

SUMMARY

Passionate and detail-oriented developer transitioning from primarily hardware to software. Moving forward, I am searching for a development position where I can contribute and become a collaborative team member.

EDUCATION

Full Stack Web Development
DigitalCrafts Coding Bootcamp

📅 04/2019 - 08/2019 📍 Atlanta, GA
- Software engineering training program covering full-stack development including, but not limited to JavaScript, Python, including an emphasis on cutting-edge frameworks like React/Redux and server-side technologies including Node.js, Express, and PostgreSQL.
